

NORTHWEST
PARKINSON'S
FOUNDATION

Movement Disorders Specialists – Northwest Region

Movement Disorders Specialists are neurologists who have completed additional fellowship training in Parkinson's, atypical Parkinsonisms (dementia with Lewy bodies (DLB), progressive supranuclear palsy (PSP), multiple systems atrophy (MSA), corticobasal syndrome (CBS)), essential tremor, dystonia, and restless leg. Movement Disorders Specialists are highly trained in managing complex medication regimens for Parkinson's, coordinating your care team (physical therapists, occupational therapists, speech therapists, social work, nursing), and connecting you to the latest treatments and clinical trials.
